# KILLED IN A SAW MILL.

A piece of wood, thown by a circular saw, killed a man at Elijah Brown's planing mill in Eleventhave., near Twenty ninth-st., yesterday. The saw, which was moved by steam power at the rate of 4,000 revolutions a minute, was being used to split walnut boards. A crooked board, only six inches wide and about eight feet fong, was being split when in some unaccountable way it was thrown from the saw, like a bolt from a cannon. It shot through the open door out into the rear yard where John Heller was picking up pieces of lumber. The end of the stick struck Heller's nock and cut his throat from ear to ear. He fell, but was able to get on his feet again and stagger into the engine-room in the basement. Blood was gashing from the wound in his throat. Joseph Vall, the engineer, tried to stop the flow of blood with a handkerchief, but Heller sank to the floor and died before a physician could be summoned. He was thirty-five years of age. His home was at No. 535 West Forty-fifth-st.

THE RAPID TRANSIT COMMISSIONERS HAVE COMPLETED THEIR WORK-MORE

TROUBLE MET.

The Rapid Transit Commissioners met yesterday afternoon and signed the report which they are to make to the Mayor on the work which he appointed them to do. The Mayor sent word that he would not be in the city to-day, and out of courtesy for him the commissioners refused to make public their report until the last minute

The question of the legality of the commissioners' act in fixing a route in Fourth-ave, has been brought up again by the discovery of a provision in the conup again by the discovery of a provision in the con-stitution of the State touching local provisions in gen-eral laws. Edward Lanterbach, the well-known railroad lawyer, has prepared an elaborate opinion against the legal right of the commissioners to make a route in Fourth ave., which, under the law of 1881, is exempted, to gether with Forty-second-st. Mr. Lauterrach holds that "the Consolidation act does not profess to repeal the fourth section of the Rapid Transit act, as amended in 1881, nor is it maintained that it does this otherwise than by implication. Complaint was made to Collector Erhardt yesterday that the steam yachts Sappho and Peerless, which on Thursday attended the regatta of the New-York Yacht Club, were without certificates of inspection, as quired by Section 4,423 of the Revised Statutes. CONSIDERING A PROJECT FOR A NEW PARK.

There was quite a crowd of people in the Mayor's office yesterday, when the Board of Street Opening took up the project of making a park of the old burnial ground, bounded by Hudson, Clarkson and Leroy sts. Stephen P. Nash and Colonel S. V. R. Cruger appeared to oppose the plan, on the part of the Trinity Parish Corporation, which owns the property. A strong delegation from the Eighth and Ninth Wards was there to urge the Board to favorable action. Mr. Nash, in opposing the scheme, said that there were 10,000 bodies buried in the ground, and that public sentiment would object to their removal. Mayor Grant inquired if the Trinity Church representatives had not heretofore opposed the park because they had extensive building operations in view there, and that these plans included the removal of the bodies. Both Mr. Nash and Colonel Cruger said that nothing of the kind had been projected to their knowledge. Plans, however, had been prepared for the creation of a chapel on the Hudson-st. side, where there were no bodies buried. After this building was up, it was the intention of the corporation to open the grounds to the public under prepased restrictions. The members of the Board will inspect the property beforereaching a decision.

## CROKER'S EXAMINATION NEAR.

HIS HEALTH MUCH IMPROVED WITHIN THE LAST TWO OR THREE DAYS.

appearance before the Senate Committee public interest in the investigation revives, and there is renewed speculation regarding the state of his health and the nature of his plans after he has been upon the witness stand and his examination is finished. Curiosity about his health springs up again because most people believe that its condition will have much to do with his bearing as a witness on Monday. A friend of Mr. Croker, who has been watching him closely since his return from Germany, said yesterday that his condition had been virtually at a stand still, but within two or three days, certainly since Thursday morning, Mr. Croker had brightened up wonderfully, and the change for the better had been emarked by all who had been in the habit of seeing him from day to day. Among them was his physician, Dr. Beekman, who is said to be highly encouraged by it. The "Boss" himself had declared that for the first time he began to feel like himself again, and had expressed his delight that the time was so near at hand when he was to appear before the Senate Committee and be able to get the bugbear of the examination off his mind. Reports that Mr. Croker intends to start back to

Europe soon after his examination are not believed to be well-founded. A well-informed Tammany man, who is in a position to know exactly what he is talking about, said yesterday that Mr. Croker would do
nothing of the kind. "He may go to the Catskills, or
to some other place of resort not far from New York
with his family," it was said, "but he will not go
much beyond the boundaries of Manhatian Island until
after the election. He has some little interest in
this next election, and he has postponed his return
to Europe until after that event."

All the members of the Senate Committee, with the
exception of Mr. Fassett, will be on hand on Monday
morning. Mr. Hendricks, the chairman, and most of
the out-of-town members are expected to arrive tomorrow.

Mr. Baer was seen by a Tribune reporter last evening. He said that he did not know how the news had leaked out, but acknowledged the truth of it. There was no idea, so far as he knew, of any scheme of building a large hotel or co-operative club-house on the site. In fact, that at present was an impossibility, as the present tennants, Acier, Merall & Could, grocers, and Healey & Co., coachbuilders, had a lease that vet ran for some years. The sale was simply a business transaction. Mr. Potter saw a good chance of realizing, and
